

Transition Planning with Trey: IEP Transition Process

Setting personal goals can help me prepare for my transition to adulthood.

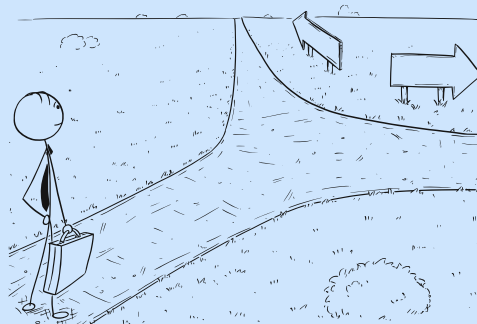

I am an important member of my Individualized Education Program (IEP) team and I can help them set goals.

My IEP team and I will need to decide which graduation path will be the best fit for my learning needs and goals. For the Occupational Course of Study, I would earn a diploma. For Adapted Curriculum, I would earn a certificate of completion. Or, I could do the Future Ready Core diploma with accommodations.

My Individualized Education Plan (IEP) team may ask me some questions to help them understand my vision for my adult life.

My teacher reminded me, it is normal for my goals to change over time as I explore my strengths and interests!
